

For four generations, customers from mechanical engineering, industry and trade have relied on BOGE know-how when it comes to planning, developing and manufacturing compressed air systems. They are fully aware of the fact that BOGE AIR is more than just ordinary compressed air: utmost safety, outstanding efficiency, excellent quality, maximised flexibility along with dependable service are the ingredients to transform BOGE AIR into air to work with – in Germany, in Europe and in more than 80 countries around the world.

Our services:

- Efficiency development
- Planning and engineering
- Plant control and visualization
- Oil free piston and screw compressors
- Screw compressors with oil injection cooling and oil lubricated piston compressors
- Compressed air treatment
- Compressed air conduction and storage
- Compressed air accessories
- Compressed air service

BOGE best*air*

The all-round carefree package for your BOGE compressed air station: **BOGE best*cair*.**

5 years reliability The best*cair* Warranty Scope

5 year warranty: BOGE best*cair* is intended to extend the warranty on your compressed air supply beyond the regular period of twelve months. Contact your service partner or the BOGE ServiceCenter for more details on the advantages of BOGE best*cair*!

BOGE best*cair* is designed to secure an extended 5-year factory warranty on new compressed air stations equipped with oil injected screw compressors. The following components are covered by the best*cair* warranty

- Compressor air end
- Main drive motor
- Frequency converter*
- Oil cooler and re-cooler of air cooled compressors
- Combined receiver
- Compressor control
- Basic frame
- Coupling*
- Built-in dryer
- Pipe work
- Fan motor
- Valve housing

(* if installed)

best*cair* WARRANTY CONDITIONS

- The new compressor station is to be installed, connected and operated in accordance with the BOGE operating instructions.
- A fully completed commissioning report for your machine is to be presented within the first six months after delivery (according to delivery note date) and/or after max. 500 operating hours.
- All maintenance intervals are to be adhered to in conformity with the operating instructions. The prescribed maintenance intervals may be exceeded once only by 10% (300 operating hours).
- The compressor is to be exchanged no later than after 30,000 operating hours.
- The bearings of the electric motors in ≤ 22 kW machines are to be replaced no later than after 10,000 operating hours, and in ≥ 22 kW machines no later than after 20,000 operating hours.
- All maintenance work is to be carried out in accordance with the operating instruction and replacement parts manual including the pertaining maintenance and wear part. It is imperative that only genuine BOGE parts and/or the respective cairpacs be used.
- Only the BOGE 3000 plus or BOGE SYPREM 8000S lubricants may be used for maintenance purposes.
- All maintenance work is to be exclusively carried out by BOGE service or BOGE authorized best*cair* partners.
- All servicing reports and invoices are to be saved by customers or service partners for any potential warranty claims.

best*cair* WARRANTY EXCLUSION

- BOGE reserves the right to replace any defect components or to insist on their replacement if such measure is liable to prevent any serious damage.
- It is at BOGE's discretion to determine whether the parts to be replaced are equivalent, overhauled, or new.
- Any exchanged parts of the A category are the property of BOGE. Unless otherwise agreed, such parts are to be returned to BOGE within 30 workdays after occurrence of damage. Return shipment of parts of the B and C categories are to be effected at BOGE's request only.
- The warranty on any exchanged parts shall in no case be extended beyond the expiry of the best*cair* warranty period.
- Any rented or relief machines which are not permanently installed do not qualify for the best*cair* program. In case of a change of the compressor location or sale of the compressor station during the best*cair* warranty period, it is imperative that BOGE be informed accordingly and that a new commissioning report is issued.
- Any compressor station having been converted and/or modified by a third party shall be excluded from the best*cair* program

Easy Participation

Your best*cair* service partner or the BOGE ServiceCenter will be pleased to assist you with your registration for best*cair*. For more details, call your service partner at **+49 5206 601-140** simply send an email to service@boge.de.

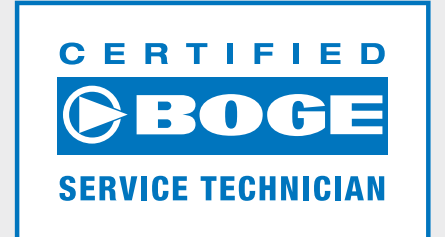

5 YEAR FULL WARRANTY

In the event of a warranty claim, BOGE agrees to assume the total material costs for any of the defined parts (for details see Warranty Scope) within the 5-year warranty period. Furthermore, BOGE agrees to also cover during the first two years any local labour, transportation and travel costs.

BOGE ORIGINAL PARTS

No matter if regular maintenance or a warranty claim is concerned, with BOGE best*cair* you are on the safe side: Because the certified service engineers exclusively use BOGE genuine parts for all work that has to be done on your machine. This enables us to guarantee that your compressor station continues to retain all of its positive characteristics over a long period of time and to operate in an efficient and reliable manner.

CERTIFIED BOGE SERVICE ENGINEERS

BOGE best*cair* is designed to ensure an all-round professional service for its customers. This includes that we exclusively cooperate with partners whose staff members are offered to attend training courses at the BOGE Compressed Air Seminar at regular intervals. You may therefore rest assured that only certified BOGE service engineers will work on your compressed air station.
